

Al - Azhar University

Faculties of Medicine

Physiology Departments

Master Degree, Skin & Venereal diseases.

21 / 4 / 2009

Time allowed: Part of 3 hrs.

Give a full account on each of the following:

1. Endocrine function of the testis and its control.
(10 marks)
2. Functions of the skin .
(10 marks)

GOOD LUCK.

أحمد عبد الله

Al - Azhar University

Faculties of Medicine

Physiology Departments

Master Degree, Skin & Venereal diseases.

8 / 9 / 2008

Time allowed: Part of 3 hrs.

1. Give a full account on the following:

A. Pain receptors (mechanism of their stimulation & reactions to cutaneous pain) (5 marks)

B. Sweat glands (types, functions & control of their secretion). (5 marks)

2. Give a full account on the following:

Testosterone hormone (synthesis, transport, metabolism, mechanism of action & its effects on sex organs and sex characters). (10 marks)

- ~~a~~ Basal cell carcinoma [10]
- ~~b~~ Parakeratosis [5]
- ~~c~~ Histopathological appearance of lichen planus [5]

Tropical medicine

- 1- Discuss the pathology of typhoid fever.
- 2- Discuss the pathology of cirrhosis.
- 3- Discuss the pathology of gastroduodenal ulcers.
- 4- Give an account of : splenomegaly.

Pathology [Subsidiary]

Discuss the pathology of:

- a- Oedema.
- b- Rheumatic fever.
- c- Goitre.
- d- Tumors of the body of the uterus.
- e- Liver cirrhosis.

جراحة العظام (10 marks each)

- 1- Discuss the histological structure of Bone cells and their role in bone calcification.
- 2- Histological structure of articular cartilage
- 3- Skeletal muscle structure

جراحة المسالك البولية

- 1- Urothelium (5marks)
- 2- Structure of male urethra (5marks)
- 3- Nephron structure (10 marks)
- 4- Discuss the histological structure of the Prostate in relation to its functional and clinical importance (5 marks)

تخصص النفسية والعصبية (15 marks each)

- 1- Cerebellar cortex
- 2- Neuronal degeneration

GOOD LUCK

Al-Azhar University
Faculty of Medicine for Girls
Master degree : Skin & Venereal

November 1996

MICROBIOLOGY

Answer the following questions:

1- Enumerate sexually transmitted diseases with its causative agents.

Discuss the diagnosis & treatment of two of them.

2- Give an account on:

a- IgE.

b- Mycotic infections of the scalp.

Good Luck

Al-Azhar University
Faculty of Medicine
For Girls

November 22th 1997

Time allowed 1 hours

BSc Exam skin and
Venereal

Microbiology Exam

Give a short account on :-

1- Dermatophytosis, their causative agents, and laboratory diagnosis.

(20 marks)

2- The immunological mechanism, of atopic dermatitis and its management.

(10 marks)

3- List the febrile viral skin rashes, the diagnosis and vaccination against ONE of them.

(10 Marks)

Good Luck

MSc. Exam. First part

Dermatology & Venereology

(40 Marks)

- 1- Give an account on causes and mechanism of contact dermatitis.
- 2- Mention the diseases that are caused by herpes simplex viruses.
Discuss the laboratory diagnosis of one of them.
- 3- Enumerate bacteria causing skin rash. Discuss the diagnosis of one of them.

Good Luck

AL-AZHAR UNIVERSITY
FACULTY OF MEDICINE
MICROBIOLOGY & IMMUNOLOGY DEPT.

Master Degree of Skin and Venereal Diseases (1st. Part)

Time Allowed: One hour

10/9/2000

Write an account on the followings:

A- Aetiology of sexually transmitted diseases (STDs) and laboratory diagnosis of Two of them.

B- Skin hypersensitivity reactions.

Good Luck

Ex. 1
1. Aetiology of STDs
2. Laboratory diagnosis of two of them

Ex. 2

Ex. 3
1. Aetiology of skin hypersensitivity reactions
2. Laboratory diagnosis of two of them

Acute & Chronic
Spore discharges
Film
(culture)
5% Co₂ - 5%

Chlamydial
Genital, urethra, conjunctiva
Culture
inoculation into cells
inoculation into cells
inoculation into cells

culture

Microbiology & Immunology Dept.

September, 2001
Time allowed 1 1/2 hr.

M.S Degree Of Skin & Venereal 1st part Microbiology

All question must be attempted:

- 1- Discuss causative organisms and laboratory diagnosis of infectious diseases transmitted during sexual intercourse (21)
- 2- Write short notes on: (20)
- a) Genital tuberculosis (5)
 - b) Urticaria (5)
 - c) Impetigo (5)
- 3- Laboratory diagnosis & causative fungal species of tinea corporis (5)

Al-Azhar University
Faculty of Medicine

(for Girls)

Dept. of Microbiology.

M.Sc. Dermatology & Venereology
1 st Part

Time allowed one hour.

15.4. 2000

Microbiology Exam. (40 Marks)

- (1) Give an account on dermatophytosis, causative organisms, methods used in laboratory diagnosis and treatment.
- (2) Enumerate bacterial causes of skin infections. Describe one of them in detail.
- 3- Give an account on:
 - (a) Contact dermatitis
 - (b) One viral sexually transmitted disease.

GOOD LUCK

Oral Exam will be on 26.4. 2000

Msc. Dermatology

Venerology

Time allowed 1 hour

14-4-2001

Al-Azhar University

Faculty of Medicine (Girls)

Microbiology Dept.

Microbiology Exam (40 Marks)

1- Discuss clinical types of leprosy, mention lab. methods used for diagnosis.

2- Give a short account on:

a- Antifungal drugs.

b- Mechanism and management of atopy

3- Mention viral diseases that cause exanthemata and mention the method of infection in each.

GOOD LUCK

Msc. Dermatology
& Venerology

AL-Azhar University.
Faculty of medicine

Time allowed 1 hour

Microbiology Dept..

13.4.2002

Microbiology Exam. (40 Marks)

(1) Enumerate sexually transmitted diseases. mention the causative organism & discuss the lab, diagnosis of one of them.

2- Give a short account on:

(a) Contact dermatitis

(b) Dermatophytosis

(c) Varicella - Zoster infection.

GOOD LUCK

Oral Exam will on 22.4.2002

Al-Azhar University
Faculty of Medicine
Microbiology & Immunology Dept.

Master Degree of Skin & Venereal Diseases

Part one

Time Allowed: One hour (40 marks)

15/9/2002

All questions are to be attempted:

✓ 1- Write an account on:

Sexually Transmitted Diseases (STDs) (Definition, causes and microbiological diagnosis of One of them) (10 marks)

✓ 2- Mycotic skin infections (Enumerate diseases with reference to their etiologic agents and mention the laboratory diagnosis, prevention and treatment of One of them.

(10 marks)

3- Hypersensitivity. (Definition and different types with reference to diagnosis of skin diseases caused by them) (10 marks)

GOOD LUCK

BSc. Dermatology & Venereology
Time allowed 1 hour
12-4-2003

AL-Azhar University
Faculty of Medicine
(for girls)
Microbiology Dept.
Marks 40

Answer all the questions:

1- Enumerate bacteria that give skin rash. Mention the laboratory diagnosis of one of them.

2- Give a short account on:

a- Dermatephytosis.

b- Diseases caused by Herpes simplex viruses.

3- Give a short account on:

a- Immunological difference between atopic dermatitis and contact dermatitis.

b- Skin antigen presenting cells.

GOOD LUCK

الامتحان الثاني : يوم الاحد ٢٠٠٣/٤/١٢
الساعة العاشرة صباحاً

LC1-284

AL-AZHAR UNIVERSITY
FACULTY OF MEDICINE
MICROBIOLOGY & IMMUNOLOGY DEPARTMENT

TIME ALLOWED: 1 1/2 HOUR

SKIN AND VENEREAL DISEASES

4/2003

All questions must be attempted:

WRITE SHORT NOTES ON: -

- 1- Swimming pool granuloma. - *Mycobacterium marinum* (L/L)
- 2- IgE-mediated hypersensitivity: (Type I hypersensitivity)
- 3- Clinical classification of medically important fungi. Outline the different methods of diagnosis and comment on the different antifungal regimes.
- 4- Pathogenesis and diagnosis of a case of soft sore on genitalia.

😊 GOOD LUCK
